

# Abed El rahman Al Naassan

## Software Developer

 abedalnaassan@gmail.com  (961)70543293  Tripoli, Lebanon  Portfolio Website

 Professional Network  Programming Projects

As a skilled web developer, I bring a passion for creating dynamic and user-friendly websites. Proficient in JavaScript, HTML, CSS, PHP, Laravel, React, and API integration, I've successfully delivered responsive and visually appealing interfaces. My ability to tackle complex challenges enables effective collaboration with cross-functional teams. Whether it's front-end, back-end, or full-stack development, I'm committed to delivering high-quality solutions that enhance user experiences.

### Core Competencies

- Full-Stack Web Development
- API Development & Integration
- Container Management
- Software Design/Architecture
- User Experience Design
- Database Management
- Agile Methodologies
- DevOps Practices
- Systems Integration

### Experience

#### **Youbee.ai**, *Web Developer Bootcamp (Remote)*

Feb 2024 – Jul 2024 | Beirut, Lebanon

- I became proficient in HTML, CSS, and JavaScript, creating visually appealing web pages and utilizing Bootstrap for responsive layouts and rapid prototyping.
- I gained expertise in PHP and MySQL, implementing CRUD functionalities, user authentication, image uploads, and user role management.
- I acquired knowledge of API integration, enhancing functionality and enabling seamless data exchange, and used Angular to build dynamic single-page applications.
- I practiced using Laravel to streamline back-end development, improving code efficiency and contributing to robust, scalable applications.

#### **Cns Solid Group**,

Apr 2023 – Jun 2023 | Beirut, Lebanon

#### *Network Engineer Internship (Hybrid)*

- particularly in switching, routing, and security, successfully implementing VLANs, VTP, and port security to enhance network segmentation and safety.
- I deployed EtherChannel to increase bandwidth and redundancy, and configured SSH, AAA, and password encryption for secure network access.
- I managed VLANs, trunks, static routing, and OSPF, implemented Access Control Lists, and applied NAT, understanding of IPv6 concepts for efficient network operation.
- I implemented key security measures such as port security and DHCP snooping, deployed zone-based firewalls, configured ASA for NAT and ACLs.

#### **Wissam Al Naassan**,

Jan 2020 – present | Tripoli, Lebanon

#### *Satellite Technician Assistant (Hybrid)*

- I meticulously surveyed sites to plan jobs, considering environmental and structural factors for optimal satellite system placement and performance.
- I determined efficient cabling routes, ensuring minimal disruption and maximum efficiency, and installed and repaired aerials and satellite dishes.
- I rigorously tested equipment, swiftly addressed faults to minimize downtime, and calculated accurate, competitive quotes for new system installations.
- I continually honed my skills and expanded my knowledge, contributing to the successful completion of numerous projects.

#### **Consolidated Consultancy Group**,

Sep 2019 – Dec 2019 | Tripoli, Lebanon

#### *IT Assistant (Hybrid)*

- I played a crucial role in installing, configuring, and maintaining the company's IT framework, ensuring smooth and efficient system operations.

- I provided general IT support, installed and maintained peripherals like printers and copiers, and supported the seamless functioning of our IT infrastructure.
- I handled customer and colleague queries regarding networks, systems, and applications through a help desk, demonstrating strong communication and technical skills.
- I managed ongoing tasks such as checking and proofreading content, performing data entry, maintaining databases, and efficiently using office equipment.

## Education

---

**Bachelor Of Information Technology,**  
*Lebanese International University*

Sep 2015 – Jun 2019 | Tripoli, Lebanon

**Related coursework:** Network - PHP - Linux - JAVA - Database - Android - Software Engineering

**BT3 - Information Technology,**  
*Lebanese High Institute Of Technology*

2012 – 2015 | Tripoli, Lebanon

**Related coursework:** Network - JAVA - Database

## Projects

---

**Network Project, CNS - Lebanon** 

- **Project Focus:** Network setup involving switches and routers.
- **Components:** Includes multiple switches and routers configured in a network.
- **Configuration**
- **Routing:** Configured routing protocols and static routes for efficient data packet delivery.
- **Switching:** Implemented VLANs and managed network traffic between switches.

## Skills

---

**Teamwork** (Expert), **Problem-Solving** (Expert), **Communication** (Expert), **Team Management** (Proficient), **JavaScript** (Proficient), **React** (Proficient), **Nextjs** (Proficient), **Nodejs** (Proficient), **Git** (Proficient), **GitHub** (Proficient), **SQL** (Proficient), **NoSQL** (Proficient), **HTML** (Expert), **CSS** (Expert), **PHP** (Expert), **Laravel** (Proficient), **Three.js** (Proficient), **Bootstrap** (Proficient), **Tailwind CSS** (Proficient)

## Certificates
